Anna:

Some of those projected inspections are actually completed. They are:

Carmeuse  
TWO LLC Wastewater  
Pilkington  
PCS Nitrogen

I have updated the information where needed to reflect that the inspection was completed. I also added an inspection from Knauf Insulation into ETS and filled it out.

Let me know if you have any questions

Thanks  
Marie

Hi Marie,

I am going through the inspections to prepare for end of year reporting. Please look over the list of completed inspections and confirm that all of your inspections have been entered in ETS. Note that the completed listed are only the ones for which you are listed as the lead inspector. I added the list of projected inspections only as a frame of reference. Please respond to this email by Wednesday, September 14th either "Yes, all of my inspections are in" or "No". Thanks for your help!
